- Assigning course/class – wrong voucher code issued

 o Assigning needs appropriate voucher code issued – it looks like it does assign a new code in their Member Area, but it still has the dummy code on the email they receive.

Voucher Courses	Classroom Enrollments		Webinar Enrollments	User Details			
Classroom	Class Date	Price	Voucher Code		Status	Paid Status	Actions
Dallas Property & Casualty	24 Jul 2222	299	QBAR6RHK6SVAK8AJ		Assigned	Unpaid	🗑

Click "Use Voucher Code"
Choose: Property & Casualty
Product Code is: 3537

o Moving a student doesn't need a new code issued – looks like it issued the same code as before. Also, on the status, I think it would be easier to track if we left it the same for the function that was used. So the first one should stay as Assigned and the 2nd one should show Moved. That was I know how they were created.

Dallas Property & Casualty	24 Jul 2222	299	QBAR6RHK6SVAK8AJ		Moved	Unpaid	🗑
Houston Life & Health	24 Jul 2222	299	QBAR6RHK6SVAK8AJ		Assigned	Unpaid	🗑

**Also, it shows the class date as today, which makes me believe it is using the date the change was made. Class dates were 7/23 and 24.

- I don't show up on the Dallas P&C roster. It did count me as one of the students, but I'm not there. This is the class I had Assigned to myself.

- When viewing the Roster and I try and click the box to show their status as Paid, it isn't doing anything.

Student Name	Class	Registration Date	Phone	Email	Price	Status	Action		□ Select All	🛩 Send Mail
Emily Raburn	Dallas Property & Casualty	2022-06-28	806-683-8659	Emilyraburn@outlook.com	306	Unpaid	□ Assign Order		□ --Select Template-- ⌄

- When I click the Paid box, 2 things should happen – 1)show paid status as paid 2)Show as Completed on their Status for their student record.
